Trisha Talpady Tel. No. [REDACTED]

Duration of treatment : 2 years (2009 to 2011)
Recovery of molluscum : 4 months
Recovery of respiratory/immunity problems : 1 yr 2 months
Recovery of warts : 2 months

My daughter, Trisha Talpady (now 5 yrs old) was suffering from multiple skin problems after she turned 3 yrs. Also she was always prone to infections (respiratory) and fever. It was by miracle that I got to meet Dr. Sunil Mehra who was listed among skin specialists in Andheri (E). I had my own reservations when I realised during our first meeting that he was a homeopath. However, slowly, I began to trust this doctor owing to his knowledge ~~and~~ attitude and approach. I even constantly surfed the internet to validate ~~the~~ ^{his} diagnosis of the various skin problems my daughter suffered from. There was clearly no cure for warts or molluscum through allopathy and I started my daughter's treatment with Dr. Mehra. Within months, all the skin problems disappeared without leaving a single mark on my daughter's skin. Dr. Mehra and his staff are very co-operative ^{and responsive} during the times that the new patients become anxious and ensured that I got the necessary ^{assurance} ~~assurance~~ and dealt with my daughter's ailments with patience. The food/diet restrictions recommended by the doctor ~~at~~ when my daughter was 3½ has helped her develop a healthy diet pattern and made her conscious of junk food at a very young age. The miracle that

happened with my daughter's skin. Encouraged me to approach Dr. Mehra ~~write~~ for her overall health maintenance and soon she was totally off antibiotics / cough syrups / rocin etc. and life became blissful for us after about 6 months of treatment which increased the duration between her illness i.e., she used to get fever at least once in 1½ months which soon reduced to once in 3 months then 6 months and I am proud to declare that my child hasn't suffered from fever ^{even once in} the last 8 months. TOUCH WOOD! She is doing so well that she has the liberty to eat food items which weren't permitted earlier as she has developed good resistance. Dr. Mehra advised us last month to stop her treatment ^{as she is fully cured of her ~~the~~ health problems} and has given us some medicines to keep in stock for any emergency. I would recommend Dr. Mehra to all the parents so they can prevent their children from drugs that only suppress infections and actually aggravate the problem causing future damage. I would like to thank Sunil Mehra from the bottom of my heart for being such a good mentor / guide to my family and would like to express my sincere gratitude to him for making my daughter healthy & fit. HE IS THE BEST DOCTOR FOR CHILDREN! CHILDREN ARE SAFEST IN HIS HANDS — JUST SURRENDER YOUR CHILD'S HEALTH TO DR. MEHRA AND SEE THE MIRACLES HAPPEN IN FRONT OF YOUR EYES.
