

Ophthalmic Infection (Eye), FISSURES (Breast) 92

PATIENT NAME: TANISHAA BHIM PATIL / AGE 4 mths

TEL NO: [REDACTED]

DURATION OF ILLNESS: FROM BIRTH

DURATION OF TREATMENT:

PERCENTAGE OF RECOVERY: 100%

My name is Geeta Patil, Tanishaa's mother. When I saw my child first time her right eye was watering & some discharge too. This was not the one problem but after some times there was many problems with me. I had sore nipple & a deficiency of milk so my daughter always cry for milk but I was unaware of fact that there is not enough supply of milk so I was told to give 'lactogen' to her. Tanishaa was suffering with digestion problems afterwards. I started hating my self because of all this. Then my sister 'Rupali Jadhav' suggested me to consult Dr. Sunil Mehra for her treatment when I met him he said he will try to cure my problem but after some times my problems getting solved one by one. First her digestion problems was completely solved & I was feeding her completely without any other milk. Slowly slowly her eye problems also solved. Now my child is a happy child with no problems at all. These small pills made wonders to my baby. All this happened only with suggestions received from Dr. Mehra. The process is slow but very

Next page

effective. Just follow his instructions & listen to him patiently. The magic will start happening soon. He is not only a doctor but a true friend.

He is just a sms away & available all the time. He is the person on whom we can trust blindly. He is so efficient that he can cure any disease. Doctor's service is also affordable.

I was using allopathy medicine but ^{the effect} it was only for some time. but ~~or~~ with Homeopathy this cures for lifetime. In comparison with allopathy Homeopathy is very cheap because we spent lot of money on medicine in allopathy but problems come again & again but in homeopathy once problem is solved it will leave you permanently.

Doctor is a like a mag magician & his suggestion & his pills are magic.

PATIENT IS MORE IMPORTANT WHILE HE IS DOING THIS TREATMENT. 'MAGIC' WILL HAPPEN SOON.

Geeta Patil
