Preet Sethi

Isher Sethi

Tel No [REDACTED]

Preet Sethi had been suffering from menstrual pain and chronic allergy from sneezing since 3 yrs. Allopathy treatment had been given but it re-occurred after some time. which made her difficult to concentrate on her studies.

Two things are very important ① patience ② continuous treatment. With a few diet tips from doctor helped her to cure faster. Within few days of treatment she herself realised that she was getting relief from the medicine. 75% of the problem has already been recovered. So homopathic treatment have faith in doctor and have continuous treatment. I request you not to give a leap in the treatment for faster results.

Isher Sethi had been suffering from Rhinitis since child birth. He grew up with the problem till the age of 6. He was given allopathy treatment, ayurvedic treatment, antibiotics, puffs. which temporarily cured the problem but it re-occurred very frequently. After given treatment by Dr. Sunil his disease has been cured upto 50% and the treatment has been followed to cure the problem from the roots. He being a small child does not follow the diet strictly. In spite of that his response to the medicine is excellent. Very soon his disease will be fully cured and he will lead a healthy body. Dr. Sunil Mehra analysed the problem and gave proper medication which assured he would be healthy very soon no matter what the

weather would be (the problem occurred mostly during the rainy and cold weather). So maintain discipline in eating habits and lifestyle along with the medication. Do not do self medication. Unlike other homopathy doctors Dr. Sumit does not inquire much about the disease. But mentally he can analyse the problem to a great extent. It was my anxiety to know how he cured without inquiring much details regarding the disease. The technique and method followed in his treatment are very good. It is my heartfelt congratulations to the doctor to keep up with his treatment and service provided.

P. Sethi

One point which has been missed out is the hyper nature of my son Isher. With few doses his irritability has reduced and helped him to calm down. Homopathy also helps in psychological problems also.
