

Migraine, Sinusitis Chronic, Recurrent throat infection, knee osteoarthritis, Cervical spondylitis

Jyotsna Desai

I was having all these problems since 8-10 years. I started homeopathy medicine in Oct. 07. I was taking it religiously. I believe a lot in Homeopathy medicine because it cures the diseases from the root and it doesn't give any side-effects. My percentage of recovery is 80%. I am thankful to Dr. Mehra because here I learned many things about eating habits, behaviours, etc. which normally we don't pay attentions.

Best thing is when ever I need or I call I was getting 100% response from the doctor. He never gave extra suggestions such as blood tests or X-rays which normally all the allopathy doctors ask.

I have stopped this treatment on my own after six months after that also I haven't suffer any kind of problem. Result is amazing. Meanwhile once I had icecream also but I didn't had any headache or cold which previously I used to get immediately after having ice-cream or cold drinks. Reupal's response is also very good. I have taken accupressure treatment from her for my back pain and the result I got within 8 days was amazing. I am 90% percent better in all my problems.
