

Myasthenia gravis, Allergic Rhinitis, Eczema.
Re-written as not clear handwriting.

I was suffering from diplopia (double vision) for which I was practically blind for 3 months. Dr Mehra was kind enough to come on his own and inform me that it is curable by homoeopathy but still I got myself admitted in Lilavati to do all the tests which were told to me and in the end they also confirmed what Dr Mehra had told me that I am suffering from Myasthenia gravis which is double vision in short. He has treated me and promised to cure the illness in 6 months and I got results in 3 months itself.

In fact the doctors in Lilavati were surprised about the swiftness of my recovery. All thanks to Doctor. As far as recurring cold problem that I was suffering he is very good in curing the same.

My son Nihal has skin blackening problem which doctor has cured completely (See below the original writing)

EYE. → Myasthenia Gravis

DATE 21.8.09

Cold. Recurrent Rhinitis

Skin { Tinea Versicolor } Nihal -
{ Eczema }

I was suffering from Diplopia (Double vision) for which I was practically blind for 3 months + Dr. Mehra was kind enough to come home on his own and inform me that it is curable by homeopathy but still I got my self admitted in dilavadi to do all the test which were told to me and in the end they also confirmed what Dr. Mehra had told me that I am suffering Myasthenia Gravis which is Double vision in short. He has treated me and promised to cure the ~~the~~ illness in 6 months and I got the result in 3 months itself.

In fact the Doctors in dilavadi were supposed about the symptoms of my ~~my~~ recovery. All thank thanks to Dr.

Dr. J. A. A. for the recurring cold problem that I was suffering he is very good in curing the same

My son Nihal had a skin blotching problem which doctor has cured completely
