

SKIN Tinea Corporis.  
Fungus. Chronic Gastritis

SUSHANT PARANIKAR

At The Outset, It Is Suppose To Be A New Home Method That Is Followed At This Clinic.

For Example:- The Day I Came For The Treatment, I Was Actually Suffering With The Illness Of Itching Between My Thighs & Also Had Severe Acidity. This Illness Is Been Carried By My Body Since The Last 4 Years. Where I Never Under Went Any Sort Of Treatment Except For Some Ointment For Itching & Calcium Citrate & End For Acidity. I Was Actually Unable To Understand The Reason Of Illness That I Was Having Since A Long Time. Hence I Decided To Treat It Permanently. So I Casually Contacted Just Him & Enquired For A Doctor & Was Referred by Dr. Menra.

I Visited This Place 1.5 Months Back & The Very First Question I Was Asked Was About What Am I Looking At. Treatment Of Disease Or Permanent Cure. I Opted For The Later.

I Was Asked To Follow A Diet & Medicines Were Offered. I Was Also Asked To Maintain A Diary. After Meticulously Writing The Diary About My Daily Intake, I Realised The Problem Was Caused By "TEA" Which Was A Root Cause For Acidity & Itching. I Tried Being Away From Tea For 3-Days & The Acidity Just Vanished. I Have Incorporated Salads + Fruits In My Diet, My Weight Has Reduced, Skin Has Started Growing, Itching Has Reduced. I Have Recovered Almost 90%. ~~Recovery~~ In Both Areas & Am Sure I Will Be 100% Fit Very Soon.  
THANKS TO DR. MENRA.
